### JOINT POSITION STATEMENT OF SUPPORT FOR UKRAINE

3 March, 2022

In Ukraine innocent civilians, among them newborns, children, adolescents and women, are being brutally attacked and their lives are in danger. We therefore call EBCOG to send the following clear message to the world.

1. EBCOG condemns all military action against civilians.
2. EBCOG calls WHO, UN, and FIGO to ask together to stop war in Ukraine immediately.
3. EBCOG asks all its national delegates and council members, including Russia, Belarus to unite in this call.

In current indescribable military actions by the Russia and Belarus upon democratic Ukraine, we suggest consideration be given to discontinuation of any professional or educational collaboration with Russia and Belarus at national level until Russia ceases all their military actions against Ukraine. We also ask EBCOG as an organization to take concrete steps to help colleagues in Ukrainian hospitals to continue their work in maternity departments, neonatal units, and departments of gynecology.
